The "Replacement Drawings" of 12/15/2005 are Acceptable.

The following is an Examiner's Statement of Reasons for Allowance: The combinations found within the Instant Independent Claims each include language such as, after the first electrode/portion makes contact with the target, the second electrode/portion initially moves away from the target to make contact with the target a distance away from where the first electrode/portion made contact with the target. The Prior Art of Record does not disclose nor appear to suggest that after contact with the target by the first electrode, that the second electrode moves away from the target so as to make contact with the target a distance away from where the first electrode made contact with the target, and as such, the claims are considered to be novel. The state of the Prior Art, McNulty, Jr. et al. (5,831,199), illustrates (see Figure 7), the use of a second electrode (25) making contact with the target away from the first electrode (15), but not that the second electrode initially moves away from the target before making contact with the target.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ronald W. Leja whose telephone number is (571)272-2053. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on (571)272-2800. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
